

Where is the human in an artificially educated world?

Rob Howe

University of Northampton – Learning and Teaching Conference

23rd June 2022

Help me Northampton delegates.....you're my only hope

Dystopian Future?

Sammy attends the first seminar of the day with their tutor Simon. They discuss some of the material presented the day before and clarify some of the points which were confusing. Simon suggests that Sammy looks at some additional material to clarify their knowledge.

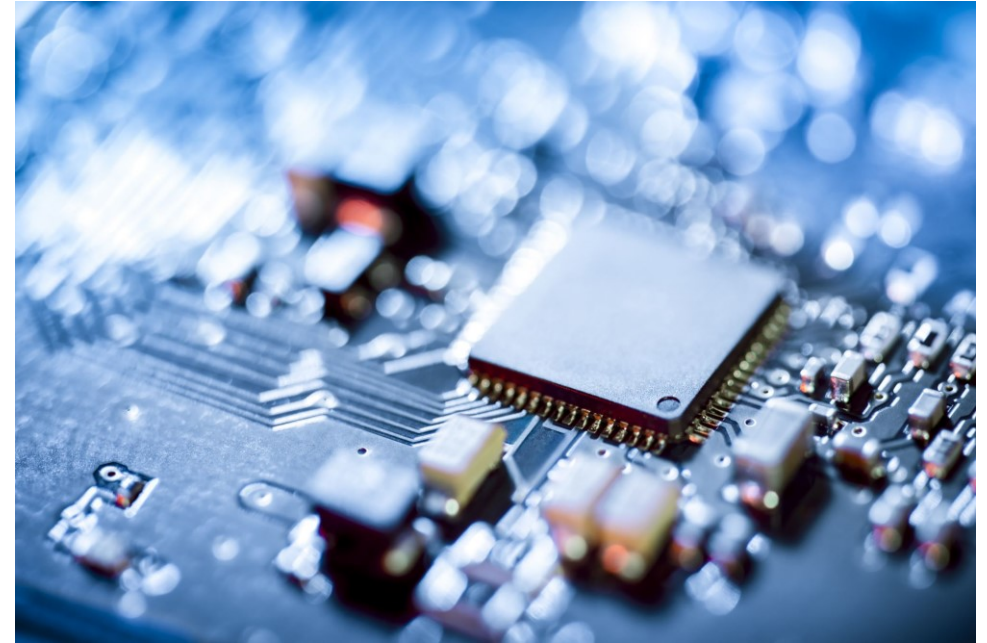

Sammy spends some time looking at the material referred by Simon and then feels confident to complete the assignment which has been set. Shortly after submitting the assignment they receive their score along with detailed feedback on areas which could have been better and some positive feedback on areas that were understood.

Sammy feels really motivated and is clear on where they need to spend more time for the next assignment.

Sammy
